

Steel Body Series

Overview

LSDA heavy-duty padlocks are designed to meet special security needs. Steel body locks are highly resistant to physical attack. Some models have rekeyable cylinders that can be masterkeyed.

Standard Features

- Materials: Stainless Steel
- Shackle: Hardened steel. Shackle on the 2012 is shrouded and deadlocks for extra security
- Cylinder: Brass pin tumbler cylinder
- Keying: The 2012 is available as keyed alike (KA) or keyed different (KD), key retaining

Stainless Steel
