

## Guarded Shackle Series

### Overview

The LSDA 2035 is often described as the “hockey puck lock”. The unusual shape completely hides the deadlocking shackle at the back of the padlock. This makes the 2035 highly resistant to physical attack.

### Standard Features

- Materials: Chrome Plated Steel
- Size: 2<sup>7</sup>/<sub>8</sub>” Case Width
- Shackle: Completely concealed deadlocking shackle
- Cylinder: Pin Tumbler, Solid Brass, Removable
- Keying: Available keyed alike or keyed different, American PTKB1 Keyway
